

Directions to campsite and rafting place (AAE)

Directions from Denver to American Adventure Expeditions

- Take I-25 south to Colorado Springs
- Exit in the Springs at exit 140
- Go to the second light and take a right on Hwy 115
- Take HWY. 115 (AKA Nevada Avenue South) about 30 to 40 miles
- HWY. 50 West (right) to Cañon City
- AAE is 10 miles west of Cañon City, 2 miles past the road to the Royal Gorge Bridge in the Dvorak's Building.

Directions to the campsite from Cañon City

- From Cañon City go west on HWY 50 about 10 miles
- There is well marked road to the Royal Gorge bridge, you will see many rafting companies off of HWY 50 and a helicopter ride place
- Go South (left) on the road to the Royal Gorge Bridge.
- Approximately 2 miles south just past the first entrance to Buckskin Joe's and just before the second entrance, is a small county dirt road on your left.
- You will see on your right the second entrance to Buckskin Joe's. (See pics below) The dirt road is unmarked but I will have a sign there telling you where to turn.
- Once you turn left the campsite is about a mile in. There are two forks in the road, stay to the right for both. The first goes to private property, the second goes into campsites.
- Follow the road around to the left after the second fork. You will see a bathroom facility. Look for us around there. I will hang my Aggie flag up at the campsite to show you where we are. I drive a Gray Tahoe, so you should see that as well.

“This sign may show up better at night, dirt road is on the left.”
